

AVTEC SCOUT

Redefine communication center operations with a dispatch solution designed to meet the challenges of today, tomorrow, and beyond. Integrate all of your communication center needs, whether simple, highly complex, or somewhere in between.

Why Avtec Scout?

Mission Critical Reliability

Avtec Scout is rigorously tested and designed with a redundant architecture to ensure reliability in every mission critical situation.

Flexibility

Scout integrates with a wide range of technologies in the dispatch industry – including legacy and next-generation radio, telephony, recording, and broadband/LTE technologies.

Customizable Design

Configure your screen to match your specific workflow with Scout's completely customizable graphical user interface.

The Avtec Advantage:

Commitment to Cybersecurity

Partner with a vendor you can trust. Avtec proudly stands by our security protocols with thorough security hardening processes, third party audits, and ongoing updates and security patches to minimize your attack surface and mitigate risk.

Technical Support

With ScoutCare™, customers receive 24/7 U.S. based technical support. Ensure incidents are resolved quickly with minimal demand on your resources.

Training

Empower your team with confidence and a strong knowledge base to make the most of your new dispatch solution. Maximize your investment with operator, maintainer, and administrator training, included with your ScoutCare™ contract.
